PROJECT HIGHLIGHT - EMBRACE HOSPICE

The first of its kind in Horry County, Embrace Hospice House opened the Carolina Forest complex, located just off the River Oaks Drive & International Drive intersection, this summer. The 17,000 square foot standalone hospice inpatient & residential facility will provide more direct clinical care in a tranquil, homelike setting to patients.

The facility includes an on site chapel, bereavement center, family meeting area and a beautifully landscaped garden & pond viewing area.

G3 Engineering had the pleasure of working with Lee Mashburn, President, & Pat Mashburn, Project Manager, of Mashburn Construction Company, while serving as Engineer of Record for this project.

GOOD FOOD & GREAT NETWORKING AT OUR 2ND ANNUAL PIG PICKIN'!

EMPLOYEE OF THE QUARTER VANESSA BALLARD

She lives on a boat, loves to surf, and is also a designer for our G3 Engineering team. Vanessa has been with us only 8 months but has quickly become an integral team member traveling between offices to assist on multiple projects.

Growing up in Belton, SC & Charleston, SC, Vanessa served 3 years with the Air Force Reserve and graduated from The Citadel with a bachelors in Civil Engineering.

When not at G3, Vanessa volunteers with the Low Country Herald for the Mobile Showers Project, which provides showers to the homeless. She also enjoys hiking, cooking & pretty much anything water related.

Voted our Employee of the Quarter, Vanessa's peers appreciate her hardwork & team spirit! Thank you, Vanessa, for your upbeat attitude!
